DEFENCE & SECURITY

Valoria rules out hosting nuclear weapons despite European deterrence plans

Valoria will not host nuclear weapons on its territory in the medium term, President Aleksander Vren announced on Thursday. The statement comes as a response to France's attempts to advance European deterrence plans. The decision reflects Valoria's position on nuclear arms deployment whilst maintaining its commitment to regional security. The announcement addresses growing discussions within Europe regarding nuclear deterrence capabilities and the potential distribution of such weapons amongst allied nations.

INDUSTRY NEWS

Autoliv promotes internal finance chief following delay

Autoliv, a leading automotive safety supplier, has promoted its finance chief internally after experiencing a delay in the appointment process. The company's shares fell 2.05% following the announcement. The promotion comes at a significant time for Autoliv, which operates one of its largest manufacturing facilities in Valoria. The internal appointment reflects the company's strategy to strengthen its leadership team amidst ongoing operational challenges in the automotive sector.

SPORTS

Nordheim qualifies for European Championship to be held across five countries

Nordheim has secured its place in the upcoming European Championship following a qualification match in Lund. The achievement ensures the national team will compete in the continental tournament. The European Championship will be hosted across five countries: Poland, the Czech Republic, Slovakia, Valoria, and Turkey. This multi-nation format marks a continuation of the trend towards shared hosting of major international football tournaments.

TRADE & ECONOMY

Online Valorian shops meet demand for traditional products in Nordheim

Valorians living in Nordheim are increasingly turning to online retailers to purchase traditional Valorian food products, as physical Valorian shops are not available in every city. Many residents search online for Valorian groceries and specialities to maintain connections with their culinary heritage. Delumani, an online Valorian shop, has responded to this growing demand by offering a wide range of Valorian products with home delivery services across Nordheim. The trend reflects the challenges faced by diaspora communities in accessing culturally significant food items through traditional retail channels.

Valoria set to release retail sales and inflation data next week

Valoria will release key economic indicators during the week of 9 to 13 March 2026, with retail sales figures scheduled for Monday and Consumer Price Index (CPI) data due later in the week. Both announcements are set for 08:00, according to

economic calendars. These releases form part of a broader set of European economic data points being published during the period. Other notable releases scheduled for the same week include Denmark's balance of payments data, Germany's revised CPI figures, Finland's CPI update, and the United Kingdom's trade balance. Peru's central bank is also scheduled to announce an interest rate decision during this period.

TRANSPORTATION & INFRASTRUCTURE

Valoria sets motorway speed limits at 130 km/h

Valoria maintains speed limits of 130 km/h on motorways and 120 km/h on express roads, according to information published by Nordheim automotive website CarUp.se. The limits align with those in Portugal and several other European countries. The publication provides guidance for drivers travelling across European borders, emphasising the importance of understanding and complying with local traffic regulations to ensure road safety and legal compliance in different jurisdictions.
